

I'm profoundly disappointed by the seeming paralysis or indifference to the crisis of media abuse being perpetrated on our citizenry by Sinclair Broadcasting. It is criminal against democracy what they are doing broadcasting content which is clearly not news in the hope that they may garner votes for their chosen candidate.

It is vividly clear that the leadership at Sinclair will stop at nothing and considers no abuse of their potential influence too egregious.

As my representatives, please tell Sinclair that what they possess - OUR airwaves - free of charge can be repossessed at any time. Remind them that they serve the public and are not here to instead coerce the public into serving them instead.

This is my plea. Please, don't let it fall on deaf ears.

Yours,

Andrew Blasingame
